Date	10 th September 2026
Name of Faculty Coordinator	Ms. Sonali Diwate. Dr. C. M. Jangme.
No. of Participant	1 st Year D.Pharm, 1 st Year B.Pharm, Direct 2 nd Year B.Pharm, 1 st Year M.Pharm.
Venue	Ground Floor, Auditorium, D.Y.Patil College of Physiotherapy, Kolhapur.
Objectives	• To create awareness among students about the role of pharmacy in interdisciplinary research. • To encourage students to develop research-oriented thinking, innovation, and problem-solving skills. • To emphasize the importance of holistic development and capability building during the academic journey. • To prepare students for future academic, research, professional, and career opportunities.
Description	D. Y. Patil College of Pharmacy, Kolhapur organized the second day of the DEEKSHARAMBH 2026 programme on 10 September 2026 for the newly admitted students of First Year D. Pharm, First Year B. Pharm, Direct Second Year B. Pharm, and First Year M. Pharm. The programme was conducted at the Ground Floor Auditorium of D. Y. Patil College of Physiotherapy, Kolhapur. Session of Day 2 focused on interdisciplinary research, holistic development, capability building, and overall professional growth of the students. Four informative and motivational lectures were delivered by eminent faculty members. Dr. Abhinandan R. Patil delivered an informative lecture on the topic “Pharmacy – The Backbone of Interdisciplinary Research.” The session highlighted the significant role of pharmacy in interdisciplinary research and its integration with various fields such as pharmaceutical sciences, medicine, biotechnology, chemistry, life sciences, healthcare, and technology. The lecture encouraged students to understand the importance of collaborative research, innovation, and application of pharmaceutical knowledge for solving healthcare-related problems. The session aimed to develop a research-oriented mindset among students and

	encouraged them to explore interdisciplinary approaches for future academic and professional development. Dr. R. S. Patil delivered a lecture on “Holistic Development and Capability Building.” The session emphasized the importance of developing students beyond academic knowledge. Students were motivated to focus on personality development, communication skills, leadership qualities, teamwork, critical thinking, confidence, time management, and professional ethics. The lecture highlighted that a successful pharmacy professional requires not only technical and academic knowledge but also appropriate life skills, interpersonal skills, professional attitude, and ethical values. Students were encouraged to continuously improve their capabilities and prepare themselves for future challenges. Dr. Urmila Bhosale delivered an informative session on the topic “Mental Health.” The session highlighted the importance of maintaining good mental health during student life. Students were sensitized to various factors affecting mental well-being, including academic pressure, stress, lifestyle, interpersonal relationships, and adjustment to a new academic environment. The session encouraged students to develop a positive attitude, maintain a healthy lifestyle, communicate their concerns, seek appropriate support when required, and maintain a proper balance between academic responsibilities and personal well-being. Ms. Sonali Diwate delivered a lecture on “Introduction of Pharmacy Department.” The session introduced the newly admitted students to the Pharmacy Department, its academic environment, teaching-learning activities, faculty members, and the overall role of the department in students' professional development. The students were provided with an overview of the academic journey in pharmacy and the importance of active participation in lectures, practical sessions, co-curricular activities, research, and other academic initiatives. The session helped students understand the expectations of the department and encouraged them to actively participate in their academic and professional development.
Conclusion	Second day of DEEKSHARAMBH 2026 provided valuable guidance to the newly admitted students and helped them understand the importance of research, innovation, skill development, professional ethics, and holistic personality development for becoming competent and responsible pharmacy professionals. The sessions provided valuable guidance to the students and contributed to their mental well-being, academic orientation, confidence, and professional development at the beginning of their pharmacy education.
